MEMORANDUM FOR MEMBERS OF JANCIC SUBCOMMITTEE ON SPECIAL STUDIES

SUBJECT: Training of Air Force Psychological Warfare Staff Officers

1. Plans for the training of qualified Air Force Psychological Warfare Staff Officers are being developed by appropriate Staff Divisions of Headquarters, U.S.A.F., in collaboration with the Air University.
2. In order to permit immediate implementation of such training, and provide a nucleus of key personnel as soon as possible, an interim program proposed by the Air University has already been approved in part. This program has been set up in three phases:
 - a. Phase 1. Consists of selection of field grade officers who will complete graduate level education at civilian universities in the social science field between 1 May 48 and 1 May 49 and the detail of this group to the Public Information Officers Course at Carlisle Barracks, Pa. Upon completion of this detail, these officers will be assigned to higher headquarters for duties permitting further experience and training in psychological warfare. They will ultimately receive advanced broad staff training at such institutions as the Air War College and the National War College. (Two field grade Air Force Officers considered qualified for this type of training are presently earmarked to attend the class of the Joint P.I.O. School, Carlisle Barracks, Pa.)
 - b. Phase 2. Consists of the selection of officers with outstanding recent academic experience at the undergraduate level in civilian institutions in the social science fields or graduates of appropriate service schools and their entry into a specially arranged course at Georgetown University. The special course will continue for approximately twelve months, upon completion of which assignment of graduates would conform to that of Phase 1. (The special course referred to above has been established and eight Air Force officers are now undergoing this training.)
 - c. Phase 3. Consists of the selection of outstanding officers recently entered or now entering civilian institutions at the completion of their first semester, for specialization in areas appropriate to psychological warfare. Where such officers are in graduate level programs, they will be handled as in Phase 1 upon completion of current academic course. Where they are studying at undergraduate levels, they will be handled as in Phase 2.

OSD & DOS review(s) completed.

C. K. RICH
Col., USAF
Chief, Psychological Warfare Division
